ADVANCED DENTISTRY of Rockland

5 N. Williams Street

Pearl River, NY • 845-735-7770

www.advanceddentistryofrockland.com

At the cutting edge of dentistry, Advanced Dentistry of Rockland offers a complete range of dental care services including general, cosmetic, orthodontics and implants for all ages. Under the leadership of Dr. Dmitry Ovrutsky, the philosophy of the office is simple, "The most important thing that we can do is to educate our patients about their dental issues, empowering them to make the right decisions for their treatment". Staying on the cutting edge of dentistry, Advanced Dentistry uses the latest technology, clinical skills, techniques and equipment. The use of digital x-ray equipment offers crisp, concise, precision based diagnosis. The digital x-ray also limits exposure to radiation. Advanced Dentistry features computer monitors in every examination room for patients to view their oral condition firsthand, so they can understand and participate in the care and treatment that they are receiving. Cosmetic services that they provide include laser whitening (ZOOM), tooth-colored fillings, porcelain veneers and more. Advanced Dentistry of Rockland can address all dental implant needs, understanding the unique challenges that may precipitate their use. They offer a variety of orthodontic options that will enhance your dental health such as traditional metal braces, tooth-colored braces, clear aligners and other devices. Call the office of Advanced Dentistry of Rockland – they are open Monday through Saturday with several evening schedules available. The friendly and knowledgeable staff is there to assist you in every way possible to achieve your winning smile!
