Dr. Ovrutsky, DDS of Advanced Dentistry of Rockland, is located at 5 North William Street in Pearl River.

Ask his patients what they love about his practice, and they answer invariably, "the gentle and pain-free nature of his practice."

"From the hygienist, Irina to her digital X-Rays, it's actually fun to go to the dentist," said one enthusiastic patient.

Dr. Dmitry Ovrutsky has lots of fans

throughout the Hudson Valley because he genuinely loves what he is doing. He takes hundreds of hours of continuing education classes to keep up with advanced dentistry. For people with an Oral Gagging Reflex Advanced Dentistry uses modern Digital X-Rays. Children and adults enter his state-of-the-art dental office and receive quality dental care.

He told us: "I want my patient's oral health to be good looking and functional. By having computerized monitors in the exam room my patients receive an unbiased opinion of their oral health.

"I want my patients to be comfortable

both physically and emotionally. Many people are afraid of going to the dentist, so they go years without proper dental care. If you go on a regular basis you minimize stress and expense."

Dr. Ovrutsky added: "We offer a variety of orthodontic options that will enhance your dental health such as Invisalign, tooth colored braces, clear aligners and other devices.

"We have flexible working hours, Saturdays and week night evenings to accommodate our patients. My patient's needs are important to me and we do what we can to cater to them.
